

NEUROPATHY UPDATE 2
Belgrade, May 11-12, 2018
CHRONIC IMMUNE-MEDIATED NEUROPATHIES

May 11

09.00h Z. Stevic (Serbia): *Opening of the Symposium*

session 1 – General approach to neuropathies

09.20h D. Cornblath (USA)
Approach to neuropathy – new treatments

09.50h D. Lavrnica (Serbia)
Emerging therapies for neuropathic pain – new molecules or new indications for old players?

10.20h V. Rakocevic-Stojanovic (Serbia)
Neuropathic pain in inflammatory neuropathies – INeSS study

10.45h A. Dominovic, S. Mavija (Bosnia and Herzegovina)
Case report – subacute sensory neuronopathy

11.00h Z. Vukojevic (Bosnia and Herzegovina)
Case report – painful diabetic amyotrophy

11.15h Discussion

11.20 Coffee break

session 2 – Paraproteinemic neuropathies

11.30h E. Nobile-Orazio (Italy)
Clinical and immunological heterogeneity of MGUS polyneuropathies

12.05h S. Peric (Serbia)
Serbian cohort of MGUS patients – INeSS study

12.30h A. Nikolic (Serbia)
Electrophysiology in MGUS polyneuropathies

12.55h M. Petrovic (Serbia)
Case report – IgM polyneuropathy

13.05h S. Peric, A. Stojanov (Serbia)
Case report – paraproteinemic polyneuropathy

13.15h B. Vujovic (Montenegro)
Case report – POEMS

13.25h Discussion

13.30h Lunch break

session 3 – Vasculitic neuropathies

14.45h Z. Stevic (Serbia)
Vasculitic peripheral neuropathies

15.20h Z. Jovin (Serbia)
Electrophysiology in vasculitic neuropathies

15.45h I. Basta, B. Bjelica (Serbia)
Case series – Churg-Strauss syndrome

16.00h G. Djordjevic (Serbia)

16.15h	<i>Case report – polyneuropathy in connective tissue disease</i> N. Tanovska (Macedonia)
16.30h	<i>Case report – CIDP associated with connective tissue disease</i> Discussion
16.35h	Z. Stevic (Serbia): Closing of the first day

May 12

session 4 – Typical CIDP

09.00h	E. Nobile-Orazio (Italy) <i>Typical and atypical CIDP: lesson from the Italian CIDP database</i>
09.35h	F. Eftimov (The Netherlands) <i>How to predict outcome in CIDP – ICOS study</i>
10.05h	I. Basta (Serbia) <i>How to treat patients with CIDP – CROC study</i>
10.35h	A. Kacar (Serbia) <i>Electrophysiological criteria for CIDP – past, current, future</i>
11.05h	V. Martic (Serbia) <i>Cases report – acute-onset CIDP</i>
11.20h	Z. Stevic (Serbia), M. Djerkovic-Lakicevic (Montenegro) <i>Case report – how to diagnose typical CIDP</i>
11.35h	D. Lavrnjic, I. Dejanovic (Serbia) <i>Case report – how to treat CIDP</i>
11.50h	Discussion
11.55h	Coffee break

session 5 – Atypical CIDP

12.20h	L. Querol (Spain) <i>CIDP: From phenotype to the lab and back</i>
12.50h	C. Verhamme (The Netherlands) <i>Role of MRI and ultrasound in CIDP diagnosis</i>
13.20h	M. Vujnic (Bosnia and Herzegovina) <i>Case report – supportive CIDP criteria: sensory nerve conduction</i>
13.35h	D. Lavrnjic, M. Cancarevic (Serbia) <i>Case report – supportive CIDP criteria: nerve biopsy</i>
13.50h	V. Rakocevic-Stojanovic, I. Bozovic (Serbia) <i>Case report – supportive CIDP criteria: CSF proteins and leukocytes</i>
14.05h	A. Kosac (Serbia) <i>Case report – CIDP vs. hereditary neuropathy</i>
14.20h	Discussion
14.25h	Lunch break
15.40h	Test
16.10h	Evaluation of the Symposium
16.20h	Z. Stevic (Serbia): Closing of the Symposium
